

## **Addendum To Questions Take On Notice**

### **16 WRITTEN QUESTIONS FROM THE PUBLIC**

#### **16.1 S.Yee, Doncaster**

- Q1 Why is the performance, or lack of, of the new bins a secret, as in “Council is not at liberty to disclose”?

*The Acting Director Assets and Engineering responded that there is nothing confidential about the performance of the new bins and Council are happy to provide details as requested.*

- Q2 How many new bins have had problems, either needing repair or replacement, since the rollout? Thanks.

*Since the delivery of the new bins commenced around a year ago, 1.2% have been repaired whilst 0.3% have been replaced.*

*The new bins are covered by a 10 year manufacturer’s warranty and any defective bins are replaced by the manufacturer. The waste collection contractor is responsible for the maintenance and upkeep of the bins, which includes the cost to repair or replace damaged, missing or stolen bins.*
